Dear Families,

Your enquiries about Trinity Catholic School community are most welcome. The choice of school for your child’s education is of great importance. It is my intention that we give you a clear ‘picture’ of the values and goals we strive for, so that you can decide if this is the school for your child and your family.

Trinity Catholic School is a Parish Primary School committed to the teachings of the Catholic faith and to the provisions of quality programs which foster the full and balanced development of each child. At Trinity Catholic School we view education as a partnership – a joint responsibility between the school and home, bound by common beliefs and values, in a spirit of mutual support and encouragement.

Here at Trinity Catholic School our focus on community, on our Catholic heritage and tradition, on pastoral care and on quality education makes us who we are. The energies of the school community – children, parents, staff and priest are integrated into the understanding of what it means to be a human person created in God’s image, aware of the interconnectedness of all life.

This occurs best when the family and school work together in partnership. If you choose to have your child/children attend Trinity Catholic School, you can be assured that we will work with you to enable your child to reach their potential.

We look forward to you joining our school community.

Yours sincerely,

Licia Marchese
Principal
